

Pre-Bid clarification
Purchase of Computer Hardware 12 Laptops,
38 Laserjet Network Printers and 19 All In One Printers

Sl. No.	Vendor's Query	SIDBI's response
1	Point no 9 d - In 14.1" Laptop: RJ11 Port has been asked. It has been an old technology and today all laptops come with RJ45 Port. RJ 11 Port cannot be provided with laptop.	RJ11 port need not be provided.
2	Point no 9 f - In 14.1" Laptop: S-Video TV Out (Optional) - S-video is again a old technology and normally doesn't comes with laptop. Today HDMI Ports comes in laptop but that too in high end laptop and is normally not used by corporate users. Also the converters which are available in the market are unbranded and we really don't know whether it will work through converters since neither HP, DELL and Lenovo manufacture the same. We request you to kindly remove the same.	The requirement is optional.
3	Point no 21- In 14.1" Laptop: Windows7 32 bit Preloaded- Kindly confirm whether we need to supply machines with windows7 preloaded or windows 7 downgraded to Windows XP which will directly cones downgraded from factory since there are some applications of SIDBI which were not working on windows7 for the laptop supplied earlier. In future if you want to upgrade it to Win7 we can do it very well without any investment.	Windows 7 downgraded to Windows XP may be downgraded from factory directly. But it may be ensured that to upgrade to Windows 7 will be obtained in future without further investment.
4	Section 4 Point No 2: Terms of Delivery: delivery to be done within 4 weeks: We require the delivery time to be extended within 6 weeks.	Delivery schedule will be as per terms and condition in the RfP.
