In such an event, the Issuer shall refund the application money, if any, collected in respect of that Tranche without assigning any reason.

12. RISK FACTORS:

- (a) Inflation risk: This arises when the rate of inflation increases. This will erode the value of your investment as the purchasing power of the bonds' coupons/ yield and principal falls.
- (b) Interest rate risk: Bond prices are inversely affected by interest rate movements. A rise in interest rates could see a fall in bond prices. If interest rates fall, buyers pay a higher price to receive a coupon that is higher than the prevailing market rates.
- (c) Call risk: Some bonds have a callable feature which gives the issuer an option to buy back (redeem) the bond before its maturity date at a predefined date. If a bond is called when prevailing interest rates are lower than at the time you bought it, you will be exposed to reinvestment risks.
- (d) Credit risk: Bonds are forms of debt, so bond prices will be affected by the perceived credit quality or probability of default of the bond issuer. When an issuer defaults, you may lose all or a substantial part of your investment.
- (e) Liquidity risk: Bonds are usually less liquid than equity. This may happen if the investors of a particular bond issue are largely buying to hold, so there are fewer buyers and sellers. This may make it harder to buy or sell the bonds. Even in cases where the bonds are listed or traded on an exchange, there is no certainty that a liquid secondary market will develop.
- (f) Market risk: A bond's price/ value will fluctuate with changing market conditions, including the forces of supply and demand and interest rate changes.
- (g) Reinvestment risk: In an environment of declining interest rates, investors may have to reinvest the income received and any return of principal at lower prevailing rates.

Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has reaffirmed Small Industries Development Bank of India's (SIDBI) ratings at 'CARE AAA; Stable / CARE A1+'. Ratings continue to factor SIDBI's role as the apex financial institution (FI) for promotion and development of the micro, small and medium enterprises (MSME) sector in India, healthy capitalisation levels, stable profitability metrics, strong resource profile, sound asset quality, and comfortable liquidity. Ratings also factor in Government of India's (GoI) and Reserve Bank of India's (RBI) support through budgetary allocations, continued access to the MSE Refinance Fund, equity contributions, past guarantees for foreign currency borrowings, and governance constrained by concentrated lending profile of SIDBI.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could individually or collectively lead to positive rating action/upgrade:

- Not applicable

Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade:

- Any material changes in the government support and/or strategic role played by SIDBI in supporting the MSME sector.
- Significant dilution in the ownership by GOI and public sector entities.
- Deterioration in SIDBI's asset quality with gross non-performing asset (GNPA) ratio increasing to more than 3% of the total advances.
- Deterioration in SIDBI's standalone credit profile, including its profitability, liquidity and/or capitalisation metrics.

Analytical approach: Standalone

CareEdge Ratings has adopted standalone approach for analysing SIDBI, factoring in expected support from GoI. Funding requirements of subsidiaries have also been taken into consideration.

Outlook: Stable

Stable outlook factors in the continued support from the GOI, and that SIDBI will maintain healthy capitalisation, asset quality, and resource profile going forward.

Detailed description of key rating drivers:

Key strengths

¹Complete definition of ratings assigned are available at www.careratings.com and other CARE Ratings Limited's publications.

Strategic role in MSME development backed by GOI

Established in 1990 under an Act of Parliament, SIDBI serves as the apex financial institution for the promotion, financing, and development of the MSME sector in India. Designated as the nodal agency for MSME development, SIDBI benefits from sustained support from the GoI and RBI through budgetary allocations and access to the MSE Refinance Fund. Its major shareholders include the GoI (20.85%), State Bank of India (15.65%), Life Insurance Corporation of India (13.33%), and NABARD (9.36%), with remaining stake held by public sector banks. SIDBI plays a pivotal role in MSME financing through direct and indirect lending, refinancing to banks and non-banking financial companies (NBFCs), and implementation of key schemes such as SMILE, CGTMSE, MUDRA, and TReDS. It also facilitates digital financial inclusion via platforms such as Udyamimitra and the GST Sahay app. With government-nominated directors on its board, SIDBI is expected to continue receiving strong capital and strategic support to enhance formal credit access for MSMEs.

Healthy capitalisation levels

SIDBI's capitalisation profile remains strong, supported by steady accretion to reserves through internal accruals. Standalone tangible net worth (TNW) increased to ₹33,999 crore as of March 31, 2025, from ₹30,040 crore a year earlier, and further to ₹38,709 crore as of December 31, 2025. Under the revised Basel III framework effective April 2024, SIDBI reported capital adequacy ratio (CAR) of 17.54%, Tier 1 ratio of 16.54%, and common equity tier 1 (CET1) ratio of 16.54%, comfortably above respective regulatory minimum requirements of 9%, 7%, and 5.5%. While the capital buffer over regulatory thresholds remains adequate, sustained balance sheet expansion may moderate these cushions in the medium term. Following regulatory changes, SIDBI is no longer subject to the earlier RBI-prescribed borrowing ceiling (18x of net owned funds) and is now permitted a leverage ratio of up to 24x of Tier 1 capital. As on March 31, 2025, overall leverage (including deposits) stood at 15.08x (FY24: 15.88x) and moderated further to 14.33x as of December 31, 2025.

A proposed capital infusion of ₹5,000 crore approved by the Union Cabinet is expected to further strengthen SIDBI's capital position. Infusion will be released in three tranches — ₹3,000 crore in FY26 and ₹1,000 crore each in FY27 and FY28. SIDBI's wholly owned subsidiaries are adequately capitalised and there is no anticipated requirement for capital support from the parent company in the near-to-medium term.

CareEdge Ratings expects timely and need-based capital support from GoI, including proposed equity infusion in phased tranches, which would provide additional headroom for growth and maintain capital buffers at prudent levels.

Strong resource profile

SIDBI's resource profile remains strong, supported primarily by domestic borrowings, low-cost MSE Refinance Funds, and a marginal share of overseas borrowings. As on December 31, 2025, domestic borrowings constituted 63.93% of total resources (March 31, 2025: 61.63%; March 31, 2024: 56.06%), MSE Refinance Funds accounted for 31.72% (March 31, 2025: 34.41%; March 31, 2024: 39.65%), and overseas borrowings formed 0.55% (March 31, 2025: 0.23%; March 31, 2024: 0.66%). In FY25, SIDBI was allocated ₹50,000 crore under the MSE Refinance Fund, of which ₹48,767 crore was received in FY25, with the remaining received in Q1FY26. A similar level of priority sector lending (PSL) deposit allocation is anticipated in the next year. While MSE Fund allocation may decline, as banks meet PSL targets, SIDBI is expected to maintain access to competitive funding, leveraging its apex FI status. A declining interest rate environment is expected to further reduce its overall cost of funds.

Stable profitability metrics

SIDBI's profitability profile continues to remain structurally moderated due to regulatory caps on lending margins in the MSE refinance segment and its historical reliance on concessional MSE funding lines. In 9MFY26, total advances grew by 19.27% year-on-year (FY25: ~8.83%), reflecting improved credit demand and disbursement momentum. However, the funding mix shifted towards relatively higher-cost market borrowings, partly replacing concessional refinance funds. While this supported balance sheet expansion, it exerted pressure on borrowing costs. Total income grew by 9.76% y-o-y in 9MFY26 (FY25: 20.57%), supported by steady interest income growth. Annualised yields remained broadly stable at 7.04% (FY25: 7.03%; FY24: 6.86%). However, cost of funds increased to 5.88% (FY25: 5.73%; FY24: 5.43%), resulting in a compression of net interest spreads to 1.16% from ~1.30% in FY25. Non-interest income moderated (0.10% of average total assets in 9MFY26 against 0.13% in 9MFY25), further constraining earnings. This was partly offset by a reduction in operating expenses (0.23% in 9MFY26 against 0.25% in 9MFY25) and lower credit costs (0.20% in 9MFY26 against 0.37% in 9MFY25), reflecting stable asset quality trends. Consequently, return on total assets (ROTA) improved to 1.02% in 9MFY26 (FY25: 0.89%) and remained broadly in line with 1.01% reported in 9MFY25.

While profitability remained stable, margin compression arising from evolving funding mix may keep spreads range-bound in the near term, with operating efficiency and credit cost control likely to remain key drivers for earnings performance.

Strong asset quality metrics

SIDBI's asset quality indicators remain strong in absolute terms, although there has been a noticeable uptick in recent periods. The gross non-performing assets (GNPA) ratio increased to 0.04% as of March 31, 2025, from 0.02% as of March 31, 2024. As of December 31, 2025, GNPA rose further to 0.11%, indicating some moderation in asset quality trends in FY26. In absolute terms, GNPA stood at ₹183 crore as of March 31, 2025, against a loan portfolio of ₹4,96,282 crore. The company maintains 100% provisioning on these assets, resulting in a net NPA (NNPA) ratio of 0.00% as of December 31, 2025. The high provision coverage mitigates immediate balance sheet risk, though the upward movement in GNPA warrants monitoring. Majority non-performing assets originate from the direct lending segment, which constitutes ~8% of the overall loan book. Asset quality in this segment is relatively weaker compared to the refinance portfolio, which benefits from diversified exposure and lower credit risk transmission. However, given the limited share of direct lending in the overall portfolio, its impact on consolidated asset quality metrics remains contained at present.

Going forward, continued monitoring of stress levels in the direct lending portfolio will be important, particularly in the context of portfolio growth and evolving macroeconomic conditions.

Key weakness**Concentrated lending portfolio**

As on December 31, 2025, indirect financing constituted 91.66% (March 21, 2025: 91.80%; March 31, 2024: 93.65%) of the portfolio, slightly down from 92.71% a year earlier. Within this segment, refinancing to banks and financial institutions (FIs) and microfinance institutions (MFIs) declined, while refinancing to NBFCs increased. Refinancing to banks and FIs accounted for 78.85% (March 21, 2025: 77.64%) of the total portfolio, followed by NBFCs at 12.14% (March 21, 2025: 12.93%) and MFIs at 0.67% (March 21, 2025: 1.22%). Year-on-year refinancing to banks and MFIs decreased by 0.83% and 0.74% respectively (March 21, 2025: 1.98% and 0.70%), whereas refinancing to NBFCs and direct financing rose by 0.51% and 0.80% respectively (March 21, 2025: 0.82% and 1.85%), which is in line with SIDBI's thrust on Direct Finance to provide an able ecosystem for the development of MSMEs in India.

Top 10 exposures represented 57.48% of total exposure as of March 31, 2025, down from 63.21%. This concentration risk is mitigated by low credit risk associated with the bank refinance portfolio, which forms majority exposures. Overall, despite high concentration, portfolio diversification and predominance of low-risk counterparties provide comfort on credit risk.

Liquidity: Strong

SIDBI's liquidity profile is strong as major portion of its loan book comprises refinance book with average period being 1-1.5 year, which is largely funded through rural infrastructure development fund (RIDF) deposits and long-term borrowings of a similar maturity. However, asset and liability management (ALM) statement as on December 31, 2025, exhibits negative cumulative mismatches in 29 days to six-month bucket, which is expected to be filled through roll over of debts and line of credit. It also has investments that are highly liquid and can be called at any time.

As of December 31, 2025, liquid investments totalled ₹39,129 crore, including cash and bank balances (₹14,119 crore) and government securities (₹25,011 crore). This excludes scheduled collections of ₹1,09,377 crore, while scheduled debt obligations for the next six months stood at ₹2,07,194 crore. Due to its status as an apex financial institution, and that it is owned by GoI and its entities, SIDBI has strong access to capital market, which further strengthens its liquidity position.

In 1990, SIDBI was incorporated as a wholly owned subsidiary of IDBI Limited. Over the years, IDBI diluted its shareholding and as on December 31, 2025, majority SIDBI's shareholding is held by GoI (shareholding is 20.85%), SBI (15.65%), LIC (13.33%), and NABARD (9.36%).

SIDBI is the apex financial institution for the MSME sector and is the nodal agency for the MSME-oriented schemes of the GoI. It provides refinance to primary lending institutions such as banks (including SFBs), NBFCs, and MFIs, among others, which lend to units under the MSME sector. SIDBI also provides direct finance to the MSME sector through long-term loans, working-capital facilities, and discounting/rediscouting bills of exchange, among others.

As on December 31, 2025, SIDBI had three wholly owned subsidiaries, SIDBI Venture Capital Limited (SVCL), SIDBI Trustee Co Limited (STCL), and Micro Units Development and Refinance Agency Limited (MUDRA). MUDRA has been set-up by GoI through a statutory enactment and is responsible for developing and refinancing all institutions that are in lending to micro/small business entities engaged in manufacturing, trading and service activities. MUDRA would partner with state-level/regional-level coordinators to provide finance to last-mile financiers of small/micro business enterprises.

The FI has 16 regional offices, 141 branch offices (including extension branches), with one express loan service centre (ELSC).

Refer to annexure for Details of Instruments & Bank Facilities

Detailed Rationale

Crisil Ratings has reaffirmed its 'Crisil AAA/Stable/Crisil A1+' ratings on existing debt instruments and bank facilities of Small Industries Development Bank of India (SIDBI).

The ratings continue to reflect the support that the bank receives from the government of India (GoI) because its pivotal public policy role in India's micro, small and medium enterprises (MSME) sector. The ratings also factor in the bank's robust capitalisation and healthy resource profile. The asset quality in the direct finance portfolio, though improving, remains weaker than that of the refinance book.

The bank's portfolio grew to Rs 5,23,038 crore as on March 31, 2025 from Rs 4,84,933 crore a year earlier, marking a year-on-year (y-o-y) growth of 8%, on a consolidated basis. Indirect finance book accounted for 92% of this overall portfolio (78% refinanced to Banks, SFBs and FIs; 13% refinanced to NBFC's and 1% refinanced to MFI's) and direct finance accounted for the remaining 8%. On a standalone basis, the loan portfolio stood at Rs 4,96,282 crore as on March 31, 2025, as against Rs 4,56,015 crore a year earlier. As of September 30, 2025, the loan book stood at Rs 4,96,777 crore, marking a modest expansion over the preceding nine-month period.

Analytical Approach

Crisil Ratings has combined the business and financial risk profiles of SIDBI, and its subsidiaries given the operational, managerial and financial linkages among the entities. Furthermore, the ratings continue to factor in the expectation of strong support from the government.

Please refer Annexure - List of entities consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers - Strengths

Continuation of strong support from the government given SIDBI's key public policy role in India's MSME sector

SIDBI plays an important role in channeling finance to MSMEs and implements government initiatives for MSMEs, which is a major driver for India's manufacturing output. In addition, Micro Units Development and Refinance Agency (MUDRA), which lends to micro/small business entities, has been set up as a wholly owned subsidiary of SIDBI.

SIDBI played a pivotal role in implementing the different schemes of the government and the RBI to support the MSME sector after the pandemic. Since the onset of Covid-19, the RBI has allotted Rs 46,000 crore under three tranches of SLF to support MSMEs. Furthermore, SIDBI enhanced the scope of its current schemes, such as SIDBI Make-in-India Soft Loan

Fund for Micro Small and Medium Enterprises and SIDBI Assistance to Facilitate Emergency response against Coronavirus, to support the MSMEs affected by pandemic-induced lockdowns. Subsequently, SIDBI has been instrumental in implementing schemes like EVOLVE, cluster development scheme, PM Vishwakarma, PM Swanidhi and others which were launched with the objective of supporting the growth, expansion and formalisation of the MSME sector.

The government is likely to continue supporting SIDBI given its role as the nodal agency for implementing public policies and channeling credit in the MSME sector.

Robust capitalisation

Capitalisation is supported by sizeable standalone network of Rs 36,587 crore as on September 30, 2025, and Rs 32,330 crore as on March 31, 2025. On a consolidated basis, network was Rs 39,620 crore as on March 31, 2025. Standalone overall capital adequacy ratio (CAR) was healthy at 18.5% as on September 30, 2025 (19.6% as on March 31, 2025). On a consolidated basis, the overall capital adequacy ratio was 21.3% as on March 31, 2025. Asset-side risks were adequately covered, with nil network to net non-performing assets (NPAs) ratio as on March 31, 2025 (as net NPAs were negligible) on a consolidated basis.

Subsequent to implementation of BASAL III guidelines from RBI with effect to April 1 2024, the minimum leverage ratio prescribed is 4 times which translates to around 24 times of Tier 1 capital, vis-à-vis earlier approved limited of 18 times of NOF (net own funds) by RBI for SIDBI. On March 31, 2025, the leverage ratio (including deposits) stood at 5.86% on a consolidated basis and 5.39% on a standalone basis whereas on September 30, 2025, leverage was 5.39% on a standalone basis.

Healthy and diversified resource profile

Borrowings (including deposits), on a consolidated basis, were Rs 5,42,015 crore as on March 31, 2025 (Rs 5,11,961 crore as on March 31, 2024), of which deposits and bonds/debentures formed 40% and 21%, respectively. On September 30, 2025, borrowings (including deposits) were Rs 5,22,665 crore. The bank has access to funds at low interest rates under the special refinance schemes of the RBI. Resource profile has remained supported by stable traction in deposits allocated under the MSE refinance fund of SIDBI.

On a consolidated basis, cost of borrowings for the bank was 5.6% (based on average of year-end numbers) in fiscal 2025 against 5.2% in fiscal 2024.

Key Rating Drivers - Weaknesses

Asset quality for the direct finance portfolio, though improving, remains a monitorable

Asset quality metrics of direct finance portfolio were impacted in prior years owing to slippage of a few large ticket exposures. However, SIDBI wrote off these legacy stressed accounts in fiscal 2022 and since then, NPAs from the direct finance portfolio have been stable and low. At an overall level, GNPA stood at 0.08% on September 30, 2025 as against 0.04% on March 31, 2025.

Liquidity Superior

The asset liability maturity profile as on September 30, 2025, is well matched across most buckets except the 3-6 months bucket where there is a negative cumulative gap. This gap is expected to be covered by uninterrupted rollover of liabilities during those respective time buckets.

Liquidity profile is comfortable with total current liquidity of Rs 70,310 crore as on December 24, 2025 (including cash and cash equivalents of Rs 21,200 crore, Liquid Investments of Rs. 37,410 crore and unutilized lines of Rs 11,701 crore). This balance excludes the benefit of inflows through scheduled collections. Excluding the unutilized bank lines, the liquidity cover is still adequate for 1 month. Against this, the scheduled debt obligations for the succeeding 3 months (January 2026 to March 2026) were Rs 1,31,368 crore.

Outlook Stable

SIDBI is likely to continue to receive operational and funding support from the government and will maintain healthy capitalisation and resource profile over the medium term.

Rating sensitivity factors

Downward factors

- Any change in the support philosophy of the GoI or decrease in government shareholding, directly or indirectly (through quasi-government entities), below 51%
- Sharp weakening of the asset quality affecting profitability and capital levels

- b) gives a true and fair view in conformity with the recognition and measurement principles laid down in the applicable accounting standards, the circulars, guidelines and directions issued by the Reserve Bank of India (RBI) from time to time ("RBI Guidelines") and other accounting principles generally accepted in India, of the net profit and other financial information for the quarter and year ended March 31, 2026.

Basis for Opinion

3. We conducted our audit of the Standalone financial results in accordance with the Standards of Auditing ("SAs") issued by the Institute of Chartered Accountants of India ("the ICAI"). Our responsibilities under those standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Results' section of our report. We are independent of the Bank in accordance with the Code of Ethics issued by the ICAI together with the ethical requirements that are relevant to our audit of the Standalone Financial Results under the provision of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial results.

Emphasis of Matter

4. We invite attention to Note No. 5 to the Standalone financial results which describes the additional provision on standard advances at rates higher than minimum stipulated under IRAC norms, as per Board approved Accelerated Provisioning Policy.

Our opinion is not modified in respect of above matter.

Management's responsibilities for the Standalone Financial Results

5. The Standalone Financial Results have been prepared on the basis of the Audited Standalone Annual Financial Statements. The Bank's Management are responsible for the preparation of these Standalone Financial Results that give true and fair view of the net profit and other financial information in accordance with the Small Industries Development Bank of India General Regulations, 2000, and recognition and measurement principles laid down in the Accounting Standards issued by ICAI, the circulars, guidelines and directions

issued by the RBI from time to time ("RBI Guidelines and other accounting principles generally accepted in India and in compliance with the Listing Regulations. This responsibility also includes maintenance of adequate accounting records for safeguarding of the assets of the Bank and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimate that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial Results that give true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial Results, the Management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Bank's Management is also responsible for overseeing the Bank's financial reporting process.

Auditors' Responsibilities for the Audit of the Standalone Financial Results

6. Our objectives are to obtain reasonable assurance about whether the standalone financial Results as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial Results.

7. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the Standalone financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances,
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
 - Conclude on the appropriateness of the Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial Results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the standalone financial results, including the disclosures, and whether the standalone financial results represent the underlying transactions and events in a manner that achieves fair presentation.
8. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

9. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matters

10. These standalone Financial Results incorporate the relevant returns of 34 Branches visited/audited by us including Head office which covers 95.64% of Advances, 97.67% of deposits, 100% of Borrowings as on March 31, 2026 and 95.43% of Interest income on advances, 96.58% of interest expense on deposits and 99.75% of interest expense on borrowings for the year ending March 31, 2026. These branches have been selected in consultation with the management of the bank. In conduct our audit, we have relied upon various information and returns received from remaining branches of the Bank not visited by us, generated through centralised database at Head Office.
11. The standalone financial results for the quarter ended March 31, 2026 being the derived balancing figures between the standalone audited figures in respect of full financial year ended 31st March 2026 and published standalone unaudited year to date figures up to the end of the third quarter of the relevant financial year. The figures up to the end of the third quarter i.e. nine month ended 31st December 2025, are reviewed and not subjected to audit by us.

Our opinion is not modified in respect of above matters.
