## **12. RISK FACTORS:**

- (a) Inflation risk: This arises when the rate of inflation increases. This will erode the value of your investment as the purchasing power of the bonds' coupons/ yield and principal falls.
- (b) Interest rate risk: Bond prices are inversely affected by interest rate movements. A rise in interest rates could see a fall in bond prices. If interest rates fall, buyers pay a higher price to receive a coupon that is higher than the prevailing market rates.
- (c) Call risk: Some bonds have a callable feature which gives the issuer an option to buy back (redeem) the bond before its maturity date at a predefined date. If a bond is called when prevailing interest rates are lower than at the time you bought it, you will be exposed to reinvestment risks.
- (d) Credit risk: Bonds are forms of debt, so bond prices will be affected by the perceived credit quality or probability of default of the bond issuer. When an issuer defaults, you may lose all or a substantial part of your investment.
- (e) Liquidity risk: Bonds are usually less liquid than equity. This may happen if the investors of a particular bond issue are largely buying to hold, so there are fewer buyers and sellers. This may make it harder to buy or sell the bonds. Even in cases where the bonds are listed or traded on an exchange, there is no certainty that a liquid secondary market will develop.
- (f) Market risk: A bond's price/ value will fluctuate with changing market conditions, including the forces of supply and demand and interest rate changes.
- (g) Reinvestment risk: In an environment of declining interest rates, investors may have to reinvest the income received and any return of principal at lower prevailing rates.

### Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has reaffirmed Small Industries Development Bank of India (SIDBI's) ratings at 'CARE AAA; Stable / CARE A1+'. Ratings continue to factor SIDBI's role as the apex financial institution (FI) for promotion and development of the micro, small and medium enterprises (MSME) sector in India, healthy capitalisation levels, stable profitability metrics, strong resource profile, sound asset quality, and comfortable liquidity. Ratings also factor in Government of India's (GoI) and Reserve Bank of India's (RBI) support through budgetary allocations, continued access to the MSE Refinance Fund, equity contributions, past guarantees for foreign currency borrowings, and governance. CareEdge Ratings also takes into consideration concentrated lending profile of SIDBI. Top 10 exposures represented 57.48% of total exposure as of March 31, 2025.

### Rating sensitivities: Factors likely to lead to rating actions

#### Positive factors: Factors that could individually or collectively lead to positive rating action/upgrade:

- Not applicable

#### Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade:

- Any material changes in the government support and/or strategic role played by SIDBI in supporting the MSME sector.
- Significant dilution in the ownership by GOI and public sector entities.
- Deterioration in SIDBI's asset quality with gross non-performing asset (GNPA) ratio increasing to more than 3% of the total advances.
- Deterioration in SIDBI's standalone credit profile, including its profitability, liquidity and/or capitalisation metrics.

#### Analytical approach: Standalone

CareEdge Ratings has adopted standalone approach for analysing SIDBI, factoring in expected support from GoI. Funding requirements of subsidiaries have also been taken into consideration.

#### Outlook: Stable

Stable outlook factors in the continued support from the GOI, and that SIDBI will maintain healthy capitalisation, asset quality, and resource profile going forward.

### Detailed description of key rating drivers:

#### Key strengths

<sup>1</sup>Complete definition of ratings assigned are available at [www.careratings.com](http://www.careratings.com) and other CARE Ratings Limited's publications.

## Strategic role in MSME development backed by GOI

Established in 1990 under an Act of Parliament, SIDBI serves as the apex financial institution for the promotion, financing, and development of the MSME sector in India. Designated as the nodal agency for MSME development, SIDBI benefits from sustained support from the GoI and RBI through budgetary allocations and access to the MSE Refinance Fund. Its major shareholders include the GoI (20.85%), State Bank of India (15.65%), Life Insurance Corporation of India (13.33%), and NABARD (9.36%), with the remaining stake held by public sector banks. SIDBI plays a pivotal role in MSME financing through direct and indirect lending, refinancing to banks and non-banking financial companies (NBFCs), and implementation of key schemes such as SMILE, CGTMSE, MUDRA, and TReDS. It also facilitates digital financial inclusion via platforms such as Udyamimitra and the GST Sahay app. With government-nominated directors on its board, SIDBI is expected to continue receiving strong capital and strategic support to enhance formal credit access for MSMEs.

### Healthy capitalisation levels

SIDBI's capitalisation remains robust, with standalone tangible net worth increasing to ₹33,999 crore as of March 31, 2025, from ₹30,040 crore a year earlier. Under the revised Basel III norms effective April 2024, SIDBI comfortably surpasses the minimum regulatory thresholds for Capital Adequacy Ratio (CAR), Tier 1, and Common Equity Tier 1 (CET1)—reporting 19.62%, 18.58%, and 18.58%, respectively, against the norms of 9%, 7%, and 5.5%. Following regulatory changes, SIDBI is no longer subject to RBI-sanctioned borrowing limits (previously capped at 18x of net owned funds) and is now permitted a leverage ratio of up to 24x of Tier 1 capital. As of March 31, 2025, SIDBI's overall leverage, including deposits, stood at 15.08x (down from 15.88x in FY24). A proposed capital infusion of ₹5,000 crore (earlier 10,000 crore) by the Government of India is expected to further enhance its capital strength.

SIDBI's wholly owned subsidiaries are adequately capitalised and there is no anticipated requirement for capital support from the parent company in the near-to-medium term.

### Strong resource profile

SIDBI's resource profile remains strong, supported primarily by domestic borrowings, low-cost MSE Refinance Funds, and a marginal share of overseas borrowings. As of March 2025, domestic borrowings constituted 61.63% of total resources (56.06% as of March 2024), MSE Refinance Funds accounted for 34.41% (39.65% as of March 2024), and overseas borrowings formed 0.23% (0.66% as of March 2024). In FY25, SIDBI was allocated ₹62,000 crore under the MSE Refinance Fund, of which ₹50,040 crore was received in the year, with the remaining received in Q1FY26. A similar level of priority sector lending (PSL) deposit allocation is anticipated in FY26. While MSE Fund allocation may decline as banks meet PSL targets, SIDBI is expected to maintain access to competitive funding, leveraging its apex FI status. A declining interest rate environment is expected to further reduce its overall cost of funds.

### Stable profitability metrics

SIDBI's profitability, particularly its return on assets (RoA), continues to be moderated by regulatory caps on lending margins within the MSE refinance segment and its significant dependence on low-cost MSE funds. Spreads on refinancing through external borrowings also low (below 100 bps). In FY25, total advances grew by ~8.83% to ₹4.96 lakh crore, primarily driven by an increased share of higher-cost market borrowings replacing concessional MSE refinance funds. This shift resulted in a rise in lending and borrowing rates. Total income registered a 20.57% growth, supported by improved interest income, with yields rising to 7.03% (FY24: 6.86%). However, cost of funds also increased to 5.73% (FY24: 5.43%), leading to a narrowing of net interest spreads to 1.30% from 1.43% in the previous year. A marginal increase in credit costs (0.43% against 0.41%) further weighed on profitability, although this was partly offset by a reduction in operating expenses, which declined to 0.26%. Consequently, RoA saw a marginal uptick to 0.89% in FY25, compared to 0.87% in FY24. Spreads are likely to remain rangebound leading with opex and credit cost driving profitability metrics.

### Strong asset quality metrics

SIDBI's asset quality, as measured by the gross non-performing assets (GNPA) ratio, marginally increased to 0.04% as of March 31, 2025, from 0.02% as on March 31, 2024. In absolute terms, GNPA remains comfortable at ₹183 crore, which is fully provided for, against a loan portfolio of ₹4,96,282 crore as of March 31, 2025. Majority non-performing assets arise from direct lending segment, which constitutes ~8% of the total loan book. Asset quality in the direct lending portfolio is comparatively weaker than in the refinance portfolio; however, its impact on overall asset quality metrics remains negligible.

CareEdge Ratings anticipates SIDBI's asset quality to remain robust given its predominant exposure to indirect finance—mainly banks and high-rated NBFCs—while direct financing exposure continues to be marginal.

## Key weaknesses

### Concentrated lending portfolio

As of March 31, 2025, indirect financing constituted 91.80% of the portfolio, slightly down from 93.65% a year earlier. Within this segment, refinancing to banks and financial institutions (FIs) and microfinance institutions (MFIs) declined, while refinancing to NBFCs increased. Refinancing to banks and FIs accounted for 77.64% of the total portfolio, followed by NBFCs at 12.93% and MFIs at 1.22%. Year-on-year, refinancing to banks and MFIs decreased by 1.98% and 0.70%, respectively, whereas refinancing to NBFCs and direct financing rose by 0.82% and 1.85%, which is in line with SIDBI's thrust on Direct Finance to provide an able ecosystem for the development of MSMEs in India.

Top 10 exposures represented 57.48% of total exposure as of March 31, 2025, down from 63.21%. This concentration risk is mitigated by low credit risk associated with the bank refinance portfolio, which forms majority exposures. Overall, despite high concentration, portfolio diversification and predominance of low-risk counterparties provide comfort on credit risk.

### Liquidity: Strong

SIDBI's liquidity profile is strong as major portion of its loan book comprises refinance book with average period being 1-1.5 year, which is largely funded through rural infrastructure development fund (RIDF) deposits and long-term borrowings of a similar maturity. However, asset and liability management (ALM) statement as on March 31, 2025, exhibits negative cumulative mismatches in 29 days to 6-month buckets, which is expected to be filled through roll over of debts. It also has investments that are highly liquid and can be called at any time.

As of March 31, 2025, liquid investments totalled ₹51,652 crore, including cash and bank balances (₹17,672 crore) and government securities (₹33,980 crore). This excludes scheduled collections of ₹43,357 crore while scheduled debt obligations for the next three months stood at ₹1,11,727 crore. Due to its status as an apex financial institution, and that it is owned by GoI and its entities, SIDBI has strong access to capital market, which further strengthens its liquidity position.

#### Detailed Rationale

Crisil Ratings has assigned 'Crisil AAA/Stable' ratings to Rs 35,000 crore of Non-Convertible Debentures (NCDs), Rs 2,20,000 crore of Rural Infrastructure Development Fund Deposit (MSE/PSL Deposit), Rs 25,000 crore of fixed deposits, bank loan facilities of Rs 1,40,000 crores and corporate credit rating, Rs 70,000 crore long-term certificate of deposit programme and 'Crisil A1+' ratings to Rs 70,000 crores of short-term certificate of deposits programme of Small Industries Development Bank of India (SIDBI) and reaffirmed its 'Crisil AAA/Stable/Crisil A1+' ratings on existing debt instruments of the entity.

The ratings continue to reflect the support that the bank receives from the government of India (GoI) because its pivotal public policy role in India's micro, small and medium enterprises (MSME) sector. The ratings also factor in the bank's robust capitalisation and healthy resource profile. The asset quality in the direct finance portfolio, though improving, remains weaker than that of the refinance book.

The bank's portfolio grew to Rs 4,84,933 crore as on March 31, 2024 from Rs 3,77,996 crore a year earlier, marking a year-on-year (y-o-y) growth of 28%, on a consolidated basis. Indirect finance book accounted for 94% of this overall portfolio (80% refinanced to Banks, SFBs and FIs; 12% refinanced to NBFC's and 2% refinanced to MFI's) and direct finance accounted for the remaining 6%. On a standalone basis, the loan portfolio stood at Rs 4,56,015 crore as on March 31, 2024, as against Rs 3,56,439 crore a year earlier. As of December 31, 2024, the loan book stood at Rs 4,64,118 crore, marking a modest expansion over the preceding nine-month period.

#### Analytical Approach

Crisil Ratings has combined the business and financial risk profiles of SIDBI, and its subsidiaries given the operational, managerial and financial linkages among the entities. Furthermore, the ratings continue to factor in the expectation of strong support from the government.

Please refer Annexure - List of entities consolidated, which captures the list of entities considered and their analytical treatment of consolidation

#### Key Rating Drivers & Detailed Description

##### Strengths:

##### Continuation of strong support from the government given SIDBI's key public policy role in India's MSME sector

SIDBI plays an important role in channeling finance to MSMEs and implements government initiatives for MSMEs, which is a major driver for India's manufacturing output. In addition, Micro Units Development and Refinance Agency (MUDRA), which lends to micro/small business entities, has been set up as a wholly owned subsidiary of SIDBI.

SIDBI played a pivotal role in implementing the different schemes of the government and the RBI to support the MSME sector after the pandemic. Since the onset of Covid-19, the RBI has allotted Rs 46,000 crore under three tranches of SLF to support MSMEs. Furthermore, SIDBI enhanced the scope of its current schemes, such as SIDBI Make-in-India Soft Loan Fund for Micro Small and Medium Enterprises and SIDBI Assistance to Facilitate Emergency response against Coronavirus, to support the MSMEs affected by pandemic-induced lockdowns. Subsequently, SIDBI has been instrumental in implementing schemes like EVOLVE, cluster development scheme, PM Vishwakarma, PM Swarnidhi and others which were launched with the objective of supporting the growth, expansion and formalisation of the MSME sector.

The government is likely to continue supporting SIDBI given its role as the nodal agency for implementing public policies and channeling credit in the MSME sector.

#### Robust capitalisation

Capitalisation is supported by sizeable standalone networth of Rs 35,719 crore as on December 31, 2024, and Rs 31,717 crore as on

March 31, 2024. On a consolidated basis, networth was Rs 34,147 crore as on March 31, 2024. Standalone overall capital adequacy ratio (CAR) was healthy at 18.5% as on December 31, 2024, having increased from 15.9% as on March 31, 2024 - lead by stipulated adoption of BASAL III norms for calculation of risk weights with effect from April 2024. On a consolidated basis, the overall capital adequacy ratio was 17.9% as on March 31, 2024.

Asset-side risks were adequately covered, with nil networth to net non-performing assets (NPAs) ratio as on March 31, 2024 (as net NPAs were negligible) on a consolidated basis as against 3,272 times, a year prior.

Subsequent to implementation of BASAL III guidelines from RBI with effect to April 1 2024, the minimum leverage ratio prescribed is 4 times which translates to around 24 times of Tier 1 capital, vis-à-vis earlier approved limited of 18 times of NOF (net own funds) by RBI for SIDBI. On March 31, 2024, the leverage ratio (including deposits) stood at 15.0 times (both consolidated and standalone) whereas on December 31, 2024, leverage was 13.5 on a standalone basis.

### **Healthy and diversified resource profile**

Borrowings (including deposits), on a consolidated basis, were Rs 5,11,961 crore as on March 31, 2024 (Rs 4,00,604 crore as on March 31, 2023), of which deposits and bonds/debentures formed 47% and 19%, respectively. On December 31, 2024, borrowings (including deposits) were Rs 4,82,202 crore. The bank has access to funds at low interest rates under the special refinance schemes of the RBI. Resource profile has remained supported by stable traction in deposits allocated under the MSE refinance fund of SIDBI.

Cost of borrowings for the bank was 5.2% (based on average of year-end numbers) in fiscal 2024 against 4.1% in fiscal 2023. While there was a slight uptick in the same to 5.8% during nine months ended December 31, 2024 owing to the tail effect of macro interest rate scenario, SIDBI continues to mobilise funds at competitive rates.

### **Weakness:**

#### **Asset quality for the direct finance portfolio, though improving, remains a monitorable**

Asset quality metrics of direct finance portfolio were impacted in prior years owing to slippage of a few large ticket exposures. However, SIDBI wrote off these legacy stressed accounts in fiscal 2022 and since then, NPAs from the direct finance portfolio have been stable and low.

As on September 30, 2024, GNPA for the direct finance portfolio stood at 0.32% (standalone) whereas for the indirect finance portfolio – GNPA was even lower at 0.01% (standalone) on the same date. At an overall level, GNPA stood at 0.02% on December 31, 2024 as against 0.01% on March 31, 2023.

### **Liquidity: Superior**

The asset liability maturity profile as on February 28, 2025, is well matched across most buckets except the 3-6 months bucket where there is a negative cumulative gap. This gap is expected to be covered by uninterrupted rollover of liabilities during those respective time buckets.

As on March 31, 2025, SIDBI had total liquid investments of Rs 61,905 crore in the form of cash and bank balance (Rs 17,200 crore) and investment in government and other securities (Rs 44,155 crore). This balance excludes the benefit of inflows through scheduled collections. Against this, the scheduled debt obligations for the succeeding 3 months (April 2023 to June 2025) were Rs 85,828 crore.

### **Outlook: Stable**

SIDBI is likely to continue to receive operational and funding support from the government and will maintain healthy capitalisation and resource profile over the medium term.

### **Rating Sensitivity Factors**

#### **Downward factors**

- Any change in the support philosophy of the GoI or decrease in government shareholding, directly or indirectly (through quasi-government entities), below 51%
- Sharp weakening of the asset quality affecting profitability and capital levels

**Independent Auditor's Limited Review Report on Unaudited Standalone Financial Results for the quarter & half year ended September 30, 2025 of Small Industries Development Bank of India pursuant to requirement of the Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended)**

To,  
The Board of Directors  
Small Industries Development Bank of India

1. We have reviewed the accompanying statement of Unaudited Standalone Financial Results of Small Industries Development Bank of India (the "Bank") for the quarter & half year ended September 30, 2025 ('the statements'), attached herewith, being submitted by the Bank pursuant to the requirement of Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations").

**2. Management Responsibilities for the Financial Information**

The Statement, which is the responsibility of the Bank's Management and has been approved by the Bank's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Accounting Standards-25 Interim Financial Reporting (AS-25) notified by the Institute of Chartered Accountants of India, the Small Industries Development Bank of India General Regulations, 2000, the circulars, guidelines and directions issued by Reserve Bank of India from time to time (RBI guidelines) and the other accounting principles generally accepted in India and is in compliance with the presentation and disclosure requirements of the Listing Regulations, 2015 including relevant circulars issued by the SEBI from time to time. Our responsibility is to issue a report on the Statement based on our review.

**3. Scope of Review**

We conducted our review of the Statement in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit.

#### 4. Other Matters:

Included in these Financial Results are the relevant returns of Mumbai Offices reviewed by us which covers 92.79% of Advances, 95.61% of deposits, 100% of Borrowings as on September 30, 2025. In conduct of our review, we have relied upon various information and returns received from remaining branches of the Bank not visited by us for the purpose of review and generated through centralized data base at Bank's Head Office.

#### 5. Conclusion

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement of unaudited standalone financial results prepared in accordance with applicable accounting standards, the RBI Guidelines and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended) including the manner in which it is to be disclosed, or that it contains any material misstatement or that it has not been prepared in accordance with the relevant prudential norms issued by the Reserve Bank of India in respect of income recognition, asset classification, provisioning and other related matters.
