# Introduction

MFIs are certainly showing good signs of recovering from the Andhra crisis and adapting to the new business environment. Their loan assets are likely to reach INR 35,000 crore by March, 2015<sup>1</sup>. The recent growth in size, profitability and efficiency of MFIs has succeeded in attracting domestic and international investors and its impact can be witnessed from the improvement in debt funding and equity capital, providing 43% growth in MFI's loan asset during 2013-14<sup>2</sup>. Moreover, better regulatory measures and a stable operating environment have enhanced stakeholders' confidence back into the sector. Recent NBFC-MFI guidelines, Priority Sector Lending and providing MFIs more flexibility in terms of interest rates, asset criteria, and net owned fund requirement has reassured their (MFIs) importance in financial inclusion. In the given positive scenario, we are certainly hopeful that MFIs will continue to play a major role in fulfilling the developmental goal of poverty alleviation.

The Poorest States Inclusive Growth (PSIG) programme is determined to facilitate and support sustained and enhanced funding to the Microfinance sector and taking it as one of the major themes for financial inclusion in the States of Bihar, M.P., Odisha and U.P. Towards this, advocacy for an enabling policy environment complemented with engagement with Banks for higher lending to MFIs is being conceived as a dual strategy. In this direction, this compendium of profiles of MFIs operating in these four focus States of PSIG is prepared, which will serve as a tool to share information on MFIs with Banks and other stakeholders and update the industry about MFIs progress in these poor States of India.

This MFI Pitchbook (compendium) is divided into four sections. The first section is about the Poorest States Inclusive Growth (PSIG) programme. The second section details-out overall microfinance sector overview in India providing financial and operational highlights both at the national and state level during the financial year 2013-14. The next section presents four States' brief overview and updates. The last section provides a snapshot of all 24 MFIs in select four States, providing information on their legal status; geographical expansion; head office; active clients; and loan outstanding in the current year 2013-14 followed by individual MFI wise detailed two page financial and operational progress in the financial year 2013-14.

We take pleasure in thanking the team at ACCESS-ASSIST (Narendra Nayak, Aparna Shukla, Tushar Krishna, Arjun Pagal, Praveen Shrivastava, Sumeet Singh Heer, Shubhangi Jaiswal, Shipra Singh, Radhika Agashe, and Vipin Sharma); DFID (Ragini Chaudhary); and SIDBI (Prakash Kumar, Surendra Shrivstava, Sonmani Choudhary, Sudhir Kumar, Utpal Chakraborty and Shrikant Das) for their contribution in designing of the MFI pitch profiles and accumulating information from various MFIs. We are also thankful to the teams of all the 24 MFIs for cooperating and providing updated data on current operations and financial projections for next three years. We are hopeful that this compendium will be an asset for various stakeholders to understand more about MFIs and how to support them for achieving financial inclusion.

With best wishes, **PSIG Team** 

<sup>182</sup> CRISIL Ratings, June 2014, 'India's 25 Leading MFIs, Sector Regaining Growth-Capital Availability Critical'

# Poorest States Inclusive Growth (PSIG) Programme

The Poorest States Inclusive Growth (PSIG) Programme is a UKAid, Department For International Development (DFID) supported program and is being implemented by the Small Industries Development Bank of India (SIDBI). Implementation period for the project is 5 years starting from 2012 till 2017. ACCESS-ASSIST, a consortium parter serves as a secretariat for implementation of policy component of the programme. The main objective of this pan-India programme is to improve access of low income households to diverse financial services in the 4 poorest States of India viz. Uttar Pradesh, Madhya Pradesh, Bihar and Odisha.

#### Chief components of the programme include:

- Policy Advocacy at the state and national level
- Capacity building of institutions/channels for delivery of financial services and
- Financial literacy and women empowerment for women clients.

The programme has two separate interlinked components:

#### **Component 1: Micro Finance and Women's Empowerment**

For financial inclusion and women's empowerment including programme management & monitoring, across the four poorest states of Bihar, Madhya Pradesh, Odisha and Uttar Pradesh. Expansion to other states may be considered.

As an implementing agency for the programme SIDBI: (a) prepares the ground for delivery of Microfinance services, by building community based and microfinance institutions. SIDBI's grants and capital at affordable rates will make microfinance operations catering at scale to poorer people a viable proposition, attracting mainstream loan funds from the market.; (b) encourages these institutions to provide diverse financial services that promote incomes and livelihoods and meet the needs of women; (c) helps minimise costs to clients, innovate, apply lessons; and ensure commercial sustainability so that services sustain even after donor support is withdrawn; (d) supports policies and mechanisms that lead to services being provided in a responsible manner, e.g., dialogue with local and central regulators; adherence to standards & regulations.

SIDBI also aims to support collectives of women organised for Microfinance to promote women's empowerment by: (i) recruiting specialist women's organisations and/or training staff; and (ii) training women clients in financial and business practices; and (iii) promoting improved household health and nutrition practices.

#### **Component 2: Impact Investing**

This component is for promoting Impact Investment across Rajasthan, Jharkhand, Chhattisgarh and West Bengal, in addition to the above mentioned 4 states.

Policy interventions for enhancing Access to Finance (A2F) in PSIG States are targeted to be achieved by working at two levels: (1) Creating an enabling environment for better implementation and compliance of existing regulatory guidelines, programmes and policies through better sensitization of various actors and building convergence among them, both at State and national level and (2) Advocate for policy creation or reform in existing policy, as required.

In India, the Micro-Finance Institutions (MFIs) operate in 30 States and serve as many as 28 million clients with a total loan portfolio of 279.31 billion as on March, 2014<sup>3</sup>. The sector in India as a well known fact has gone through turbulent times, tiding through a period of high growth, low entry barriers and large availability of funds, then hit by the Andhra crisis in October 2010, experiencing high volatility and funding constraints. The industry then saw a period of consolidation after the Andhra crisis, improvement in the funding environment and then finally the current phase of tighter regulation, higher emphasis on responsible finance practices and expectation of a more stable growth trajectory.

It can be said that the industry is recovering now, the worst is over and the industry is now looking beyond "growth in and health of loan portfolio"<sup>4</sup>. The focus has expanded from credit to non-credit products such as pension and insurance as well. Not to mention, government intervention with schemes like the National Pension Scheme and the very recently launched Prime Minister's Jan Dhan Yojana and frequently released regulatory guidelines by the RBI have been a big push towards this change in environment and approach.

The table below summarises year on year percentage change in some basic indicators for 48 MFIs across the country as reported to MFIN, 33 of whom have received NBFC-MFI registration from RBI with the rest being under process. This gives us a clear picture of the current scenario relating to loan portfolio, branches, employees, insurance and pension. There is a 44% increase in gross lending portfolio over the past twelve months and a 28% increase in gross sum insured. However, only 854 new branches were opened in the last one year and so far 1.5 million pension accounts have been opened.

| Indicator                | As on 31 <sup>st</sup> March'14 | As on 31 <sup>st</sup> March'13 | YoY percentage change (%) |
|--------------------------|---------------------------------|---------------------------------|---------------------------|

#### Aggregated National level data for FY 2013-14<sup>5</sup>

A similar table for the four PSIG states below enables comparison with national level data for March 2014. Uttar Pradesh ranks highest among the four states in terms of Gross Lending Portfolio (GLP) although M.P has the highest number of MFIs under operation.

| Indicator                       | Uttar Pradesh | Bihar | Odisha | Madhya Pradesh |
|---------------------------------|---------------|-------|--------|----------------|
| MFI Count                       | 15            | 17    | 11     | 21             |
| Branches                        | 692           | 624   | 518    | 689            |
| Employees                       | 4,969         | 4,166 | 3,106  | 4,474          |
| Clients(mn.)                    | 1.84          | 1.73  | 1.47   | 1.73           |
| Glp (bn.)                       | 19.96         | 15.56 | 10.98  | 15.20          |
| Loans disbursed (annual in mn.) | 1.43          | 1.41  | 0.71   | 1.35           |

#### Aggregated State level data for FY 2013-146

The overall portfolio quality of MFIs (excluding Andhra portfolio) has been good as the Portfolio at Risk (PAR) 30days beow 1%<sup>7</sup>. Northeast States like Meghalaya, Sikkim, and Himachal Pradesh experience 10 to 30% of active loan accounts/amount delinquent as per PAR>30 days. Tier wise analysis of MFIs shows that tier 3 MFIs are performing poorly in States like Kerela, M.P., Maharashtra, Rajasthan etc. and inadequate fund flow to MFIs in these States. One of the reasons could be a concern among clients about the unavailability of repeat loans leading to holding on cash. The profitability of MFIs has improved between 2013 and 2014 especially in the case of large

<sup>&</sup>lt;sup>3</sup> MFIN Micrometer' May, 2014 edition

 $<sup>^{\</sup>scriptscriptstyle 5}\,$  MFIN Micrometer' May, 2014 edition

<sup>&</sup>lt;sup>5</sup> MFIN Micrometer' May, 2014 edition

<sup>&</sup>lt;sup>6</sup> Based on data collected from 41 MFIs by ACCESS-ASSIST for Social Performance Report, 2014

<sup>&</sup>lt;sup>7</sup> Based on limited data sourced from MIX data set and ACCESS-ASSIST data collected for State of Sector Report, 2014

MFIs with GLP Rs. 10 billion and medium sized MFIs with GLP Rs. 2 to 5 billion; the Return on Equity (ROE) and Return on Assets (ROA) both increased by 2% and 1% respectively over the last year. An increase of 2% (13% to 15% from 2013 to 2014) in the financial expense ratio indicates that MFIs are now spending more to source capital<sup>8</sup>.

#### Move towards Responsible Finance Practices in the Microfinance Sector

In 2011, the RBI issued guidelines to regulate NBFC-MFIs and retain Priority Sector lending status for MFIs. These guidelines ensure transparency in disbursement of loans and other services offered by NBFC-MFIs by requiring them to assess client indebtedness before loan disbursement to avoid over indebtedness. MFIs are also asked to set up grievance redressal cells, thus ensuring client protection. In August 2012, and then again in July 2013, RBI issued an amendment to existing guidelines to ease operations for NBFC-MFIs. In November 2013, RBI allowed for recognition of an industry association of NBFC-MFIs as a Self Regulatory Organisation (SRO) and on June 18<sup>th</sup>, 2014, MFIN was recognized as the SRO. The key action areas as spelt out by the RBI in its guidelines for SRO include surveillance, grievance redressal, dispute resolution, investigations, data collection and training and knowledge development.<sup>9</sup> In February 2014, RBI issued another amendment to guidelines on NBFC-MFIs, with respect to pricing of credit. Interest rates according to the amendment would be priced either at the cost of funds plus the margin, or the average base rate of the five largest commercial Banks by assets multiplied by 2.75. Later in June 2014, RBI allowed NBFC-MFIs to work as Business Correspondents. In the circular on July 1, 2014, the RBI guidelines issued laid huge emphasis on transparency, fair practices, customer protection, elimination of ghost borrowers, avoidance of over indebtedness, non-coercive methods of recovery and membership of MFIs to at least one Credit Information Agency (CIC) to ensure compliance with these conditionalities<sup>10</sup>.

Creation of two credit bureaus--Equifax Credit Information Services and CRIF High Mark Credit Information Services Ltd. has helped in assessing over-indebtness and instances of multiple lending among the borrowers. Credit bureau helps distinguish between good (low risk) and bad (high risk) borrowers by looking at their professions, skills, loan, and repayment histories, just like any other credit bureau. Credit bureaus have now a repository of more than 100 million loan records data. Introduction of Code of Conduct Assessment (CoCA) has attributed in compliance with regulatory guidelines, governance and integrity. A few institutions providing CoCA are ACCESS ASSIST, ICRA Management and Consulting Services (IMaCS), M2i, M-CRIL, and SME Rating Agency (SMERA)<sup>11</sup>. Responsible Business Index is a next step to CoCA which evaluates MFIs and give a score out of 100 for its level of adherence to the RBI guidelines. It is now possible to even measure MFI's social performance, reported in the Social Performance Management (SPM) reports. Various reports from rating and research agencies predict better days for the microfinance sector as well as their clients. A few of the projections are listed below.

- According to an ICRA report, potential size for the microfinance market, inclusive of SHG bank linkage and microfinance institutions, is as large as Rs. 1.4-2.5 trillion at penetration levels of 50-70% and ticket sizes from Rs 35,000-45,000<sup>12</sup>.
- Owing to higher expected growth, expansion to newer geographies, vulnerable borrower profile and high employee attrition, the cost of funds to MFIs is expected to rise, however, there is greater visibility on improvement of credit flow from Banks.
- Although, the return on equity for non AP based MFIs has improved from 3.9% reported for 2011-12, it still remains low at 8.8% for 2012-13. It is therefore expected that these MFIs will be able to improve their net interest margins and rationalize their costs further to lead to improvement in ROE<sup>13</sup>. According to the CRISIL report, MFIs have been able to raise Rs. 1500 Crore worth of equity capital in the 30 months ended Sept. 2013. Although any sudden surge in equity investment is not expected, it is believed that Rs. 1800 Crore worth of equity capital could be raised by MFIs over the next 2 years<sup>14</sup>.
- Debt Securitisation has remained the key source of funds for MFIs. And, although the Andhra Ordinance weakened lenders' confidence in the sector, the CRISIL report estimates the share of MFI securitization in all assets funded through securitization at 25%.

Bihar is the poorest State of country with the exception of Odisha, affected by abject poverty and low coping mechanism due to occupation unavailability, low skill set among people, high level of illiteracy, and poor outreach of mainstream institutions leading to poor standards of living, thus compelling a large part of the population to migrate to other States. As per the planning commission, 53.5 percent of its population lives below the poverty line and nearly nine-tenth of its population lives in the villages. Bihar falls in the Gangetic basin with fertile alluvial soil and abundant ground water resources. With bifurcation of the State, the vast mineral sector and other big industries went to Jharkhand. The present Bihar is left with only agriculture to depend upon.

In the State, Microfinance Institutions (MFIs) are playing an important role in improving the living standard of poor through credit provisions at interest rates that are much lower than what the informal money lending system provides and where money requirement of customer is small, as per bankers' point of view. MFIs with their operations in 36 districts and 12 lakh active borrowers rank 8<sup>th</sup> in terms of national outreach in the microfinance perspective and the loan portfolio outstanding amounted to Rs. 1556 crore in 2013-14. In the same year the State performed well with loan disbursements amounting Rs.1832 crore and ranked 6<sup>th</sup> among other States in India. Reports also confirm that MFIs have been doing transactions worth more than Rs.3000 crore in a year in Bihar.

| Performance indicators of 17 NBFC-MFIs operating in Bihar (2012-13 and 2013-14) <sup>15</sup> |            |            |                     |  |
|---|------------|------------|---------------------|--|

| Loan amount disbursed (in billion)  | 11.05      | 18.32      | 65.79%              |  |
| No. of clients (millions)   | 1.28       | 1.73       | 35.16%              |  |
| Branches  | 540        | 624        | 15.56%              |  |
| Loan Outstanding/Client (INR)   | 7,745      | 9,016      | 16.41%              |  |
| Avg. Loan aount disbursed   | 13,540     | 16,051     | 18.55%              |  |
| Employees   | 3,764      | 4,166      | 10.68%              |  |

With the initiation of MFI operations in southern Bihar (now Jharkhand), microfinance has made a positive impact in the lives of small entrepreneurs and business owners in underserved areas. Given the poverty level credit needs, the number of organizations working in the microfinance sector has grown to 21. A few organizations who have initiated microfinance programmes in Bihar are NIDAN, CASHPOR, RGVN, and Roji Roti. Institutions like Samman Foundation and Jeevan Jyoti Kala Kendra serve rikshaw pullers through their microfinance programme. Moreover, MFIs are not only fulfilling the credit needs of the poor, but also contributing in social development through means of training and capacity building; health and sanitation; livelihood intervention; and education etc. *C-DOT*, one of the home grown organization working in the State has one of the components of health and sanitation, livelihoods intervention, education etc. to fulfill the social development needs of their clients. Ujjivan, one of the leading MFI operating in Bihar is also providing basic medical services like dental, gynecology services, diabetes with guidance of experts like World Health Organization (WTO). Installation of drinking water and toilet facilities, provision of weighing machine for weekly weight checks of children (through Anganwadi workers) are a few initiatives Ujjivan has undertaken for their clients. Another home grown MFI *Saija Finance Private Limited*, with technical assistance from ACCION International created a partnership with IFMR Trust and launched cashless transactions in partnership with EKO.

Bihar is a region which certainly needs a higher level of intervention in the micro finance sector and a model which mitigates the naturally enhanced risk in this region and seeks to create an environment which makes the microfinance model sustainable. Emphasizing on SHG-BL, a large scale programme is being implemented under State Livelihoods Mission known as **JEEViKA** to create one million SHGs in five years (2012-17) in the State. As on March, 2014; 95,007 SHG savings accounts have been opened and Rs. 37.895 lakhs have been credited to the groups. Bihar Mahila Samakhya Society (BMSS) and Women Development Corporation working for women empowerment through SHGs and SHG federations also have been playing a significant role in facilitating bank linkage programmes and providing non-financial services to women as well.

<sup>&</sup>lt;sup>15</sup> Source: MFIN Micrometer, May,2014 edition

Home to the rich cultural heritage, landscape, large plateau regions, immeasurable monuments, amazing mountain range and miles and miles of dense forest, M.P. contributes a unique and exhilarating view of nature. The State had a population of 725.98 lakh registering a decadal growth of 20.3%. Madhya Pradesh with an area of 308 thousand sq. kms is now the second largest State of the country, constituting 9.4 percent of the total geographical area (census, 2011).

The population density is 236 persons per sq. km registering an increase of 40 persons over population density of 196 in 2001 census. There is a high concentration of tribal population in the State. As per 2001 Census, the Scheduled tribes and Scheduled Caste population is 122.33 lakhs and 91.55 lakhs lakhs respectively. Tribal population of the State accounts for 14.51% of the total tribal population of the country.

The incidence of poverty in Madhya Pradesh is one of the highest in the country. Thus poverty is an area of great concern for the State. The State had the fourth highest percentage of poor households among 15 non-special category States in the year 2004-05, next only to Odisha, Bihar and Chhatisgarh (NSSO, 2009). In the prevailing situation, microfinance has been one of the inputs that can provide the poor and the needy with the required 'push' to overcome food insecurity, social backwardness, livelihood vulnerabilities, seasonality, and debilitating shocks, and to cross above the poverty line.

The microfinance sector in Madhya Pradesh continued to grow in line with the national trend until the crisis occurred in the sector. The MFIs as a whole continue to be making vital contributions by offering various need based products and services for the clients. In the initial years of development, NGOs/MFIs were essentially an extension of the formal banking channel led by SHG-BLP, sponsored by NABARD. Overall, 32 MFIs were actively involved in delivering financial services to its clients in the State.

| Performance indicators of 21 MFIs operating in M.P.(2012-13 and 2013-14) <sup>16</sup> |        |        |                     |  |
|--|--------|--------|---------------------|--|
| Indicators FY 2012-13 FY 2013-14 Percentage In   |        |        | Percentage Increase |  |
| Gross Loan Portfolio (in billion)  | 9.78   | 15.2   | 55.4                |  |
| Loan amount disbursed (in billion)   | 11.79  | 19     | 61.2                |  |
| No. of clients (millions)  | 1.24   | 1.73   | 39.5                |  |
| Branches   | 513    | 689    | 34.3                |  |
| Loan Outstanding/Client (INR)  | 7,899  | 8,808  | 11.5                |  |
| Avg. Loan amount disbursed   | 13,044 | 14,075 | 7.9                 |  |
| Employees  | 3,267  | 4,474  | 36.9                |  |

There has also been a marginal improvement in the client outreach and size of their(MFIs) loan portfolio in 2014 as compared to previous years signifying positive trends in the recent months. Specifically, all 21 NBFCs, through their 816 branches, spread over 51 districts, have been able to reach out to 17.3 lakhs clients with Rs. 1520 crore of gross loan portfolio by the end of March 2014. Collectively, they have registered 55.4% growth in their gross loan portfolio. Recently Banks including Canara bank, IDBI, YES Bank etc. have started re-lending to MFIs. SIDBI through the DFID assisted Poorest States Inclusive Growth (PSIG) programme is also assisting the sector by extending diversified financial as well as technical supports to MFIs.

*Madhya Pradesh Livelihoods Mission* has been also playing a pivotal role in expanding the SHG Bank Linkage in the State in collaboration with NABARD, other related stakeholders. SRLM has planned to credit link one lakh SHGs for an amount of Rs 1,000 crore during the current financial year. State Financial inclusion model popularly known as **Samruddhi** aims at people not just having access but gaining access to financial services and financial literacy and claims to work as a business model creating a business of 600 crores in just 7-8 months.

There is a felt need to aware the public as well as private sector Banks in M. P., on the operation, MIS, governance and client protection mechanisms of the MFIs. This will not only sensitise the bankers but also create a sense of mutual trust/confidence among them. Facilitating greater flow of funds for the sector, strengthening convergence among various stakeholders & programmes, undertaking financial literacy, enterprise promotion, expanding financial inclusion with diversified services and pro-poor products, integrating technological innovation, institutional building etc. can be taken up to strengthen the sector and a create lasting impact in the lives of the poor.

<sup>&</sup>lt;sup>16</sup> The Economic Survey Report for 2013-14

Situated at the Eastern coast of India, Odisha is the 9<sup>th</sup> largest State in India with 30 districts, 58 sub-divisions and 314 blocks. According to the 2011 census, the total population of Odisha is 41,947,358, with 21,201,678 (50.54%) males and 20,745,680 (49.46%) females. Odisha has abundant natural resources and a large coastline. The extensive forest resources provide ample scope for forest-based activities. Agriculture continues to be the backbone of the State's economy; as majority of the population depends on agriculture for their livelihood. Odisha has, infact, emerged as one of the most preferred destinations for overseas investors with investment proposals in the last few years.

However, despite all this, Odisha has been still considered as one of the poorest States in the country. The Economic Survey of 2013-14 mentions that Odisha along with Madhya Pradesh have the highest percentage of rural poor in the country. Agriculture and allied sectors continue to be subsistence- oriented and susceptible to natural shocks such as droughts, cyclones and floods. The agricultural sector that was booming has slowed down relatively, growing at 3.53% in 2013-14 compared to 12.72% in 2012-13, mainly owing to the Phailin that hit the State in October'2013. Similarly, the economic growth in the State also nosedived from 8.09% to 5.60%.<sup>17</sup> Furthermore, Left Wing Extremism (LWE) has affected almost 19 out of 30 districts in the State. This has an impact on the overall economy, security and development, and thus has to be tackled with specific strategies.

Over the years, the State itself has emerged as a potential microfinance market in the region and projected a rich diversity of microfinance models, practices, tools and products etc. Delivered through various channels including the SHG-Bank Linkage Program (SHG-BLP) and MFI channels, microfinance has been able to reach out to a large section of the poor including women in the State. The advent of Mission Shakti, initiated by the Women & Child Development Department, Govt. of Odisha in the year 2001, provided a boost to the SHG movement in the State. The contributions made by some of the large projects implemented by Govt. such as WORLP, OTLEP, TRIPTI/ OLM etc. have also been quite supportive in expanding the SHG-BLP in the State.

| Performance indicators of 11 MFIs operating in Odisha (2012-13 and 2013-14) <sup>18</sup> |        |        |      |  |
|---|--------|--------|------|--|
| Indicators FY 2012-13 FY 2013-14 Percentage Increa  |        |        |      |  |
| Gross Loan Portfolio (in billion)   | 7.78   | 10.98  | 41.1 |  |
| Loan amount disbursed (in billion)  | 6.28   | 9.68   | 54.1 |  |
| No. of clients (millions)   | 1.17   | 1.47   | 25.6 |  |
| Branches  | 456    | 518    | 13.6 |  |
| Loan Outstanding/Client (INR)   | 6,672  | 7,479  | 12.1 |  |
| Avg. Loan amount disbursed  | 11,921 | 13,696 | 14.9 |  |
| Employees   | 2,926  | 3,106  | 6.2  |  |

There has been a marginal improvement in the MFIs' client outreach and size of their loan portfolio in 2014 as compared to previous years, signifying positive trends in recent months. Specifically, all 11 NBFCs (two Odisha based), through their 518 branches, spread over 27 districts, have been able to reach out to 1.47 million clients with Rs. 10.98 billions of gross loan portfolio by the end of March 2014. Collectively, they have registered 41.2% growth in their gross loan portfolio.

Altogether 32 MFIs were actively involved in delivering financial services in 2009-10 (22 Odisha- based MFIs and 10 having head quarters outside Odisha), out of which 11 were NBFCs, 15 societies registered under the Societies Registration Act, 2 Trusts, 3 Co-operative societies and one Section 25 company. Collectively, they have had their presence in all the districts of Odisha, reaching out to 1.7 million borrowers with Rs. 11,436 million loans outstanding as on March'2011.<sup>19</sup> Recently Banks including Canara bank, IDBI, YES Bank etc. have started re-lending to MFIs. SIDBI through the DFID assisted Poorest States Inclusive Growth (PSIG) programme is also assisting the sector by extending diversified financial as well as technical support to MFIs.

<sup>&</sup>lt;sup>18</sup> Status of Financial Inclusion and the Way Forward in Odisha:2012-2015, ACCESS-ASSIST, 2012

Odisha continues to be one of the leading States in expanding the SHG-BLP in terms of outreach and linkages. Current figures suggest that around 50 lakhs poor households have already been organized into Women Self Help Group (WSHGs) in the State. Implemented across the State at present, the *Odisha Livelihoods Mission (OLM)* has been also playing a pivotal role in expanding the SHG Bank Linkage in the State in collaboration with NABARD, other related stakeholders. OLM has planned to credit link one lakhs SHGs for an amount of Rs 1,000 crore during the current financial year.

Facilitating greater flow of funds for the sector, strengthening convergence among various stakeholders & programmes, undertaking financial literacy, enterprise promotion, expanding financial inclusion with diversified services and pro-poor products, integrating technological innovation, institutional building etc can be taken up to strengthen sector and create lasting impact in the lives of the poor.

Uttar Pradesh, is home to 16.6% of the total population of India and thus the most highly populated state in the country. It also has the highest rural population. Estimates released by the Planning Commission revealed that Uttar Pradesh had 59 million people living below the poverty line, the most for any State in India. A more recent report by RBI estimated the population living below poverty line to be 29.43% of the total State population which is far below the national average of 21.92%. The urban and rural poverty is equally rampant with 30.40% and 26.06% of their respective populations below the poverty line. In terms of Net Domestic Product, Uttar Pradesh has the third largest state economy in India with agriculture being the leading occupation. The State also ranks low on both income and human development indicators such as infant mortality and life expectancy. It has high diversity in economic and cultural context, high demographic diversity, but lags behind other States in terms of micro finance and coverage of SHGs.

With the industries and service sector keeping in specific pockets of the State, majority of the population in the State has been employed mostly in the informal sector. There are discrepancies within the different regions of the State with respect to different developmental parameters. According to the Sa-Dhan report (2012-13), the number of districts which are being served by MFIs is 43 out of which 24 are the poorest districts. 53 Banks are providing microfinance services out of which there are 20 public sector Banks, 2 private Banks, 10 RRB's and 24 DCCB. Significant loan amount has been disbursed in the State and MFIs headquartered in the South such as SKS have shown interest in the State because of its huge potential in microfinance operations. With MFIs flourishing in the State, the gross loan portfolio achieved 55% increase over the last year(2012-13) and witnessed 25% growth in client outreach by end of March 2014. Moreover, a higher growth (72%) in loan amount disbursed this year over the last year is observed in the State as well, which shows a positive sign of development in the State.

MFI's working in the State have made positive impacts in promoting entrepreneurship and small businesses in the urban and semi urban areas. Based on the information elicited from these four MFIs (CASHPOR, Disha, Utkarsh and Margdarshak), the financial products offered to their clients are loans in the form of common service directly from their company. MFIs like CASHPOR, Disha work in the underserved poor regions and Grameen Banks, RGVMP and GDS work in the poorer regions including Bundelkhand.

Utkarsh has rapidly emerged as one of the most promising MFIs in India. They have created several innovative client protection processes. Notable among them is a grievance redressal system in which clients can call the MFI head office from a toll free number and share any concerns they might have. CASHPOR has designed 'energy loans' for the members to buy smokeless stove, solar lamps and other devices; health loans for members to invest in toilets; and safety loans to meet emergency situations like flood, fire, earthquake, epidemic, serious accident, etc. Thus MFIs are not only fulfilling credit needs, but also working in social development through training and capacity building, health and sanitation, livelihood intervention and education etc.

Given the prevailing environment in the State, large number of microfinance service providers such as MFIs, NGOs, SHPIs, Federations, and Cooperatives etc. have started promoting microfinance throughout the State. As per the NABARD Focus paper 2013, **Rajiv Gandhi Mahila Vikas Pariyojna (RGMVP)**, the biggest agency has promoted 932 Cluster level associations and 26 block level associations in U.P., promoting livelihoods and financial literacy among women SHGs. The **Rashtriya Mahila Kosh (RMK)**, an organisation set up by the Ministry of Women and Child Development, provides loan funds for on-lending to women's groups. Figures of the State wise lending by Rastriya Mahila Kosh show that in Uttar Pradesh, by March 2013, 2,657 SHGs were provided loan support through 139 NGOs. **UPSRLM**, a large scale rural development programmes have supported more than six lakh groups in the State supporting livelihoods and under SGSY more than 25 lakh are benefiting from the scheme.

# **Arohan Financial Services Private Limited**

| Year of Incorporation | 1991        |
|-----------------------|-------------|
| Year of commencement  | 2002        |
| of MF operations:     | April, 2006 |
| Legal status          | NBFC- MFI   |

#### **About Us**

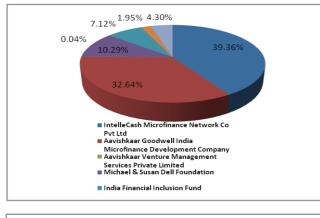

Arohan started its operation in 2006 under the name of ANG Resources Private Limited subsequently changed to Arohan Financial Services Pvt. Limited. Later on in Sept'12, IntelleCash Microfinance Network Capital Pvt. Limited, a subsidiary of investment banking services and advisory firm Intellectual Capital Advisory Services Pvt. Ltd. (Intellecap), acquired a majority stake in Arohan. Initially an urban-focused MFI, Arohan's operational strategy has evolved over time catering now to both rural and urban clients in the eastern part of India. It currently has around 66% of its customers in rural and semi-urban areas and the remainder in urban geographies.

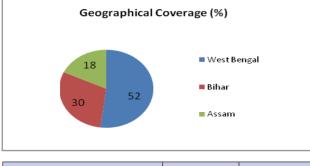

#### VISION

To be among the top 3 Financial Inclusion players in the East, North East and Central LIS, serving over 10 lakh customers across 10 states, and being in the top 10 preferred places to work.

#### MISSION

To empower the undeserved by offering a range of financial services, in a manner sustainable for all the stakeholders.

| Number of Board Members | Male | Female |
|-------------------------|------|--------|
| 10                      | 09   | 01     |

#### Key Promoter/Lead Executive:

#### Mr. Shubhankar Sengupta, Director and CEO

Post Graduate from IRMA, he has 14 years of experience in Microfinance including earlier stint in BASIX, before setting up Arohan.

#### **Market Potential & Growth Perspectives**

MFI is currently operating in 26 districts of 3 states. MFI intends to expand its operations into 8-10 more low income states in eastern and central India. Arohan will move away from being a mono-product (microcredit) provider to becoming a conduit to provide multiple financial products to clients in next five years.

# Samhita Community Development Services

| Year of Incorporation: | 2007               |
|------------------------|--------------------|
| of MF operations:      | 2008               |
| Legal status:          | Section 25 Company |

#### **About Us**

Samhita Community Development Services [Samhita] is an effort to design and build a network of sustainable community development institutions to address the core requirements for a life with dignity and quality. Samhita was registered on September 28, 2007 as a not- for- profit section-25 company in Bhopal, the capital of MP.

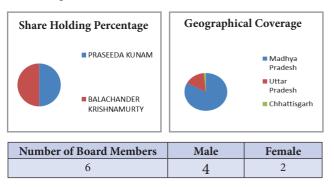

The core values of Samhita are based on the belief in certain fundamental rights for all to a life with dignity, opportunity and self-respect. They include client-centric value creation as the driving theme for all activities, promotion of community participation and ownership, outreach at scale with essential services, financial sustainability, professional management with integrity, continuous investment in employees and their professional growth, environment-friendly interventions, and optimal harnessing of technology to introduce efficiencies, lower costs and innovation.

#### VISION

A life filled with opportunity, quality and dignity for underprivileged communities.

#### MISSION

Use collective, coordinated action to develop a network of sustainable and scalable community initiatives that deliver positive economic, health, educational and environmental impact to disadvantaged communities.

#### Key Promoter/Lead Executive:

**Ms. Praseeda Kunam, CEO & Director** is the promoter and CEO of Samhita. Praseeda holds an MBA degree as well as a Masters in Information Management from Washington University, St. Louis, and has 17 years of work experience (12 in microfinance).

**Mr. Balachander Krishnamurthy, Director** is the promoter of Samhita Community Development Services. Bala has worked for ten years in the US corporate sector, with the firms McKinsey & Company (Chicago), Zacks Investment Research (Chicago) and Wellington Management Company (Boston), in the areas of corporate finance, investment research and investment software. Bala has also worked in the rural development sector in India over the past 14 years. He has been an advisor to a public health promotion project at Ramakrishna Mission, Varanasi, as well as the architect of award-winning microfinance technology solutions at SKS Microfinance, Hyderabad, and Cashpor Microcredit, Varanasi. Bala holds an MBA (Finance) from the University of Chicago, MS (Computer Science) from Virginia Tech, and B. Tech. (Mechanical Engineering) from IIT Delhi.

| Year of commencement of MF operations: | 2008                |
| Legal status:                          | Cooperative Society |

#### About Us

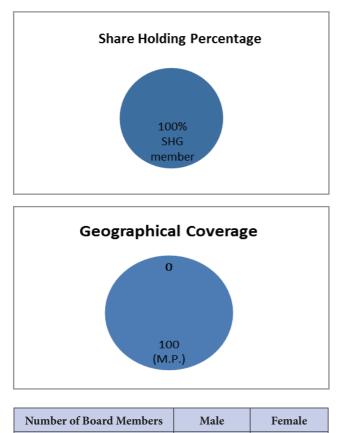

Shakti Mahila Sangh (SMS) headquartered at Jabalpur district is a co-operative society registered under the MP Swayatta Sahkarita Adhiniyam, 1999 with the registration number **JR/JBR/SWA/5/31**. It was established to work for the upliftment and empowerment of vulnerable and marginalized sections of the society. It has been working in most remote area of Jabalpur and Katni district namely Majholi, Bhaoriban Riti blocks. SMS activities are primarily aimed at eradicating poverty with particular emphasis on empowering women. Revolving around these objectives and stakeholders, SMS's interventions are focused around its 4 thematic areas of women empowerment through FI; financial literacy to poor; livelihoods promotion; and health.

#### VISION

To establish an economically & socially empowered and healthy society where women become financially independent with sustainable livelihood activities.

#### **MISSION**

"To work with poor women by providing financial & non-financial services that enable them to enhance their income and make them financially literate & socially empowered"

Micro Finance, an internationally accepted and practiced program for Poverty alleviation has been the thrust area of Gram-Utthan since 1995-96. Since then it has been a long yet a successful journey for Gram-Utthan. The initial support to GU-mF program was provided by various national level support agencies like RMK, NMDFC, and NBCFDC etc. The growth of GU programmes, especially its mF portfolio was quite moderate till the year 2000. Then GU got support from CARE-CASHE for streamlining and developing its mF program. For last five years CARE has been a mentor for Gram-Utthan. The system and procedures of the GUmF program has developed in last five years, with initial support from CARE-CASHE and later on by SIDBI and other such Institutions like AXIS Bank, ABN Amro Bank, HDFC, ICICI Bank, FWWB, Manaveeya Holdings, National Housing Bank, NABARD, Central Bank of India and many others. Gram-Utthan follows SHG model for delivering various financial products/services.

#### VISION

Creation of an equitable society in which poor and disadvantaged would be able to lead a better life with dignity and security.

#### **MISSION**

Enabling the poor and disadvantaged for qualitative changes in their lives through an empowerment process.

#### **Market Potential & Growth Perspectives**

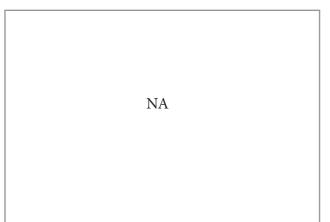

Gram-Utthan intends to expand its operations to two more states in the next 3 years period. The estimated market size in the current and proposed new areas will be around 175000 clients. Despite the competition from other microfinance players, Gram-Utthan with their multifaceted approach, will make concerted efforts to enhance its market size as well as its outreach by offering diversified products and service in their proposed operational areas.

# Mahashakti Foundation

| Year of Incorporation: | 2004             |
|------------------------|------------------|
| Year of commencement   | 1996             |
| of MF operations:      | 2004             |
| Legal status:          | Charitable Trust |

#### About Us

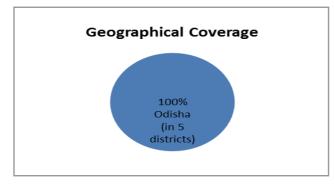

Mahashakti Foundation (MSF) has been a leading new generation social and development finance institution, operating mainly in the most backward KBK region of Odisha state. It is registered under the Indian Trust Act-1882 and was formally made operational on 19th Oct, 2004 from Kalahandi district of Odisha. The core objective of MSF is to provide different range of services like livelihood enhancement, health, education, micro credit, solar energy, micro insurance etc to the rural 'poor communities' and bring in qualitative changes in their lives. Starting their micro finance operation in 2004, MSF has adopted SHG and JLG models to provide financial services to the poor clients. MSF also offers various types of credit plus services for its members.

### VISION

Mahashakti Foundation visualizes an egalitarian society of justice, economic independence, empowerment and peace.

### **MISSION**

Organize the poor, build up their capacities and facilitate access to relevant sustainable development services in a transparent and dignified way.

#### Market Potential & Growth Perspectives

Mahashakti is currently operating in 6 districts of Odisha and they aim to strengthen their hold in those ditricts while working closely with the communities. The organization gives its best possible effort to provide financial services and credit plus services like health service to its clients. Other than direct lending, it is one of the BC partners of 'Yes Bank' to link the SHGs of KBK districts with the bank to receive need based savings, loan and insurance services. With a well experienced team and efficient leadership, the organization expects to increase its borrower size to five times by 2017.

# Swayamshree Micro Credit Services(SMCS)

#### **About Us**

SMCS, a not-for-profit company, was established in 2003 under Section 25 of the Companies Act 1956. It was promoted by Centre for Youth and Social Development (CYSD), one of the largest NGOs engaged in community development programmes in Odisha. SMCS started its operation in 2004 in Khurda district of Odisha and currently operates in 16 districts of the state.

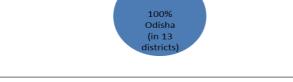

#### VISION

A poverty-free inclusive society, where the poor have yet another chance for self-renewal and growth with opportunities to live fulfilling and meaningful lives by overcoming their vulnerabilities and releasing their productive potential, thereby linking with mainstream through participation in the collective growth.

#### **MISSION**

To bring visible changes in the lives of the poor through creation of a premier MFI in Odisha which is: efficient; sustainable; works with care and commitment; wins acceptance from stakeholders through its financial and complementary services.

| Number of Board Members | Male | Female |
|-------------------------|------|--------|
| 9                       | 7    | 2      |

# MFI Pitch Profile - Odisha

# MFI Pitch Profile - Odisha

# Swanshree Mahila Samabaya Ltd (SMSL)

| Year of Incorporation: | 2006         |
|------------------------|--------------|
| Year of commencement   | 1996         |
| of MF operations:      | 2006         |
| Legal status:          | Co-operative |

#### **About Us**

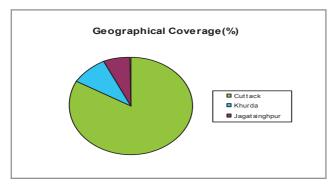

Swayanshree was first registererd under the SRA 1860 in 1998 and started working on financial needs of the urban poor. In 2002, associating with the epic CARE-CASHE project, the organization began to extend technical and financial services to the federation. At the end of 2006, the governing body of SWAYANSHREE decided to separate its microfinance operation and transfer that to another entity. One of the main reasons was to institutionalize its microfinance programs into a Cooperative thereby allowing itself to mobilize share and savings from its members legally. Accordingly a new entity Swanshree Mahila Samabaya Ltd (SMSL) was created and registered under the Odisha Self-Help Cooperative Act'2001 in the year 2006. Since then SMSL has been managing the microfinance portfolio and by now is fully involved in providing the need based financial services like savings, credit, insurance, pension etc to its members effectively.

#### VISION

Attain women economic wellbeing through economic independence and prosperity.

#### **MISSION**

Provide sustainable and inclusive financial services through a user owned institution.

### SHAREHOLDING:

Swayanshree is a cooperative as such owned by the entire members of the cooperative. Each one of them has got a shareholding of Rs.100/- paid while becoming member.

| Number of Board Members | Male | Female |
|-------------------------|------|--------|
| 11                      | 0    | 11     |

#### Key Promoter/Lead Executive:

#### Ms. Nayana Mohanty, CEO

Ms. Mohanty started her journey in the development sector in 1989 and she has been associated with SMSL since 2002. Ms. Mohanty efficiently leads the cooperative and closely monitors the day-to-day operations at the field as well as the administrative level. She is an MBA and holds the BA (B. Ed) qualification.

| Legal status:          | Pvt. Ltd Co. Registered u/s 25 |
| -                      | of Companies Act' 1956         |

#### **About Us**

Founded by Mr Vijay Pandey in 2007 with a vision to provide loans and allied services to women (mostly migrants) to enable their male family members own a rickshaw. Lending operations commenced in January 2008. BMC offers clients income generating loans and also acts as BC for Yes Bank and Union Bank of India.

Besides loans BMC also provides insurance (asset and life), rickshaw puller's uniform, ID card, municipal permit, driving license and after sales maintenance to its cstomers; and charge Rs 1,500 for providing these allied services. Credit linked insurance is offered along with the income generation group loans.

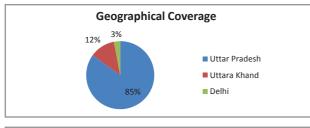

In Feb 2014, BMC was appointed as the implementation partner for Priyadarshini - a women's empowerment and livelihood program of Government of India to develop the capacity of SHGs and subsequently establish bank linkages.

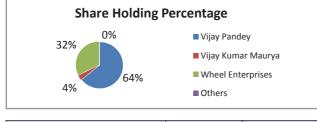

#### VISION

"To provide need based financial and allied resources to 70,000 poor women in two states through 20 branches of BMC till March 2017"

#### MISSION

"To provide need based financial and allied resources on reasonable terms to the poor women especially in the rural areas in order to enhance the quality of life of the clients and their families in a sustainable manner"

|--|--------------------|
| Year of commencement of MF operations: | 2007               |
| Legal status:                          | Section 25 Company |

#### About Us

HPPI works as part of civil society to strengthen the capacities for cooperation, for individual and collective action in order to improve man's conditions of life. We believe that all people have an equal right to live a dignified life with access to basic needs such as food, health service, education and livelihood.

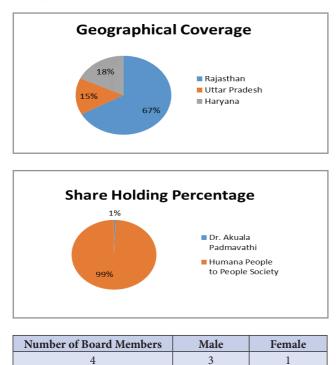

We also believe that poverty can be overcome through coordinated, community-wide approaches that combine education, adult literacy, improved livelihoods, increased productivity, health and sanitation, the empowerment of women and environment protection.

#### VISION

To provide improved access and efficient provision to micro credit/ finance to secure sustainable livelihood opportunity and a life of dignity for the rural poor, especially women in India.

#### **MISSION**

Our mission is to ensure that the poor women is no longer exploited by the money lenders or denied access to credit. To ensure this it pledges to organize them in groups, build their capacity and provide easy access to credit so that they smoothen their consumption, manage their risks better, build their assets gradually, develop micro enterprises, enhance their income earning capacity, and enjoy an improved quality of life.

# Margdarshak Financial Services Ltd (MFSL)

# Margdarshak

| Year of Incorporation:                 | 9th May 1996 |
|--|--------------|
| Year of commencement of MF operations: | 2007         |
| Legal status:                          |              |

#### **About Us**

Headquartered in Lucknow, Uttar Pradesh, MFSL is a NBFC-MFI and is working towards the objective of economic empowerment for women and poverty alleviation in North India. MFSL is engaged in providing microfinance to the poor and marginalized communities. It is also PFRDA licensed aggregator for NPS-lite Swalamban Scheme.

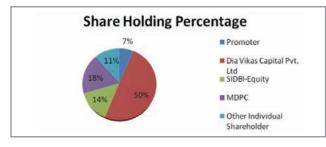

MFSL is led by a highly competent board consisting of promoters, institutional nominees and independent directors of repute. The microfinance programme was initiated in 2007. Cumulative disbursement as of March 2014 has touched 1328.79 million to over 119584 families through a network of 40 branches in UP, Bihar and Haryana

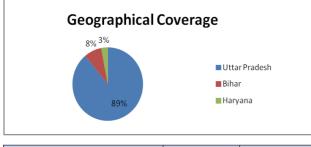

#### VISION

Providing a holistic bouquet of financial products and services to the economically weaker enterprising sections of the community.

#### MISSION

Adapting industry best practices in all aspects of organizational performance for emerging as financial service provider of choice for 200000 families in North and Central India.

| Number of Board Members | Male | Female |
|-------------------------|------|--------|
| 8                       | 6    | 2      |

#### **Key Promoter/Lead Executive:**

- 1. Mr. Rahul J. Mittra, Promoter Director, MD & CEO Development professional with over 20 years of working experience in livelihoods, microfinance & microenterprise development at grass root level in north India.
- 2. Ms. Saroj Mittra, Whole Time Director: Post Graduate in Commerce and Certified Associate of Indian Institute of Bankers (CAIIB) with over 15 years of banking experience. Gurmeet Anand, AGM- Business Planning & Development: MBA-Finance and Post Graduate in Commerce and has an experience of over 11 years in the Development and Financial sector.

#### **Market Potential & Growth Perspectives**

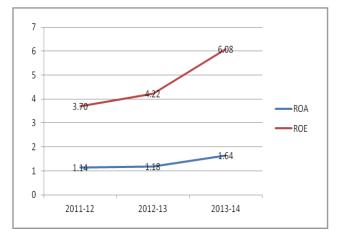

As of March 2014, MFSL has achieved a GLP of INR. 373.95 mn through a network of 40 branches. This is a growth of 48% over the previous years GLP. In the year 2014-15, MFSL has projected a GLP of INR 681.13 mn which is a growth of about 80% of the current GLP. Over the next 4-5 years the growth rates is estimated to settle down around 20-25%. MFSL has achieved an OSS of 112% which is expected to remain stable over the next 5 years.

For expanding its outreach, MFSL has identified areas which remain unserved or underserved by microfinance. The key focus of the organisation remains on Uttar Pradesh, Bihar and Haryana over the next 3 years. Surrounding pockets of Rajasthan will be covered during the current FY depending upon the financial resources available with the organization.

Poorest States Inclusive Growth (PSIG) Programme 59

# Department for International Development (DFID)

For several decades, Government of UK's Department for International Development has been actively working with the Government of India to help the country achieve its own poverty reduction priorities and the Millennium Development Goals. India is a growing global power and an important partner for the UK. As India's economy grows, poverty reduces and India has ever greater prominence in world affairs, the UK's development partnership with India is evolving.

In November 2012, the UK and India agreed to move to a new development relationship, ending the UK's financial grant aid to India. The UK will responsibly complete by 2015 all our commitments to on-going projects. All new programmes will focus on sharing skills and expertise in priority areas such as growth, trade and investment, skills and health, or on making investments in private sector projects which create opportunities for the poor while generating a return. We will also strengthen our partnership with India on global development issues like food security and climate change.

Until 2015, DFID India will:

- Focus on poorest people in India's low income States
- Put women and girls at the heart of our work
- Expand the private sectors' potential to combat poverty and
- Deepen our engagement with India on global issues to benefit poor people elsewhere

# Small Industries Development Bank of India (SIDBI)

Small Industries Development Bank of India (SIDBI), set-up on April 2, 1990 under an Act of Indian Parliament, acts as the Principle Financial Institution for the Promotion, Financing and Development of the Micro, Small and Medium Enterprise (MSME) sector and for Coordination of the functions of the institutions engaged in similar activities.

Financial support to MSMEs is provided by way of (a) refinance to eligible Primary Lending Institutions (PLIs), such as, Banks, State Financial Corporations (SFCs) for onward lending to MSMEs and (b) direct assistance in identified niche areas.

SIDBI has reoriented its business strategy towards filling up the financial and non-financial gaps in the MSME ecosystem. Some niche financial gaps addressed by equity/risk capital, receivable finance, sustainable finance which includes energy efficiency/clean production technology, service sector financing, factoring and reverse factoring, etc. SIDBI is one of the pioneers in the microfinance field and has initiated several steps for the orderly development of the sector.

SIDBI has also taken strategic initiatives for addressing various non-financial gaps for capcity building of the MSME sector, as well as Bankers. these activities include entrepreneurship promotion through a dedicated website 'www.smallB.in', credit advisory services, loan facilitation, capacity building of Banks particularly Regional Rural Banks towards microenterprise lending, etc.

SIDBI has inter-alia, played pioneering role in the development of Micro Finance sector in the country under the National Micro Finance Support Programme supported by Department For International Development (DFID), UK and International Fund for Agricultural Development (IFAD), Italy. The programme which was operative in 2002-2009 has resulted in development of over 100 vibrant and self sustaining MFIs in India.
